## The Heckscher Museum of Art *Student Art Exhibition*

### "Sixth Annual Community ArtSense"

September 5 – September 27, 2009

Reception: Friday, September 11, 6:00-7:00 PM

The Heckscher Museum of Art is very proud to present the Sixth Annual *Community ArtSense Exhibition*, highlighting artwork by selected students ages 5 through 16 who participate in the Museum's *ArtSense* Program this July and August.

This summer students were inspired by three exhibitions on view in the Museum – **Paper Chase: Works on Paper by William Merritt Chase and his Contemporaries**, **Five Centuries of Art: Selections from the Permanent Collection**, and **Twentieth Century Prints from the Collection**. Also, because of the outstanding success of the Artist-In-Residence format, the Museum invited **guest artist Tom Brydelsky** to speak with the teen classes and inspire their artwork. Using these sources of inspiration, students worked with Museum Educators and created a wide variety of works of art.

Short descriptions accompany the exhibition, which help demonstrate the connections between the professional works of art and the student work created as a response. These descriptions discuss the motivation and process, as well the art work that directly inspired certain projects. Summer *ArtSense* is a wonderful opportunity for budding young artists
